FRUITION: SGEA STAFF TRACK 2021

The SGEA Staff Track 2021 Conference planning committee would like to thank each and every one of you who made this inaugural event a special one! With 130 staff participants, we are delighted that we managed to move into a new dimension for showcasing administrative educators, skills and experiences across the continuum of medical education. The opportunity to share quality educational content with our peers across all regions of the GEA was simply amazing. The current pandemic is all about adapting and innovating. The conference committee was instrumental in designing the program from the ground up to ensure we could bring the most pressing topics for staff in medical education.

Below is an infographic of the impact of the SGEA Staff Track conference across the GEA! We had medical education staff peers and colleagues from across all regions as leaders, facilitators, and participants of the conference. To have attendees from the peach state of Georgia to tropical Hawaii, we cannot thank you enough for making this virtual conference a success!
